### Description of service

Naíonra Leim an Bhradain was established in 2011 as a privately run childcare service for pre-school children aged 2 years to 6 years by the present registered provider.

The service provides sessional childcare and education to children from 08:40 to 11:40am and 12:00 – 15:00hrs. Learning is facilitated through an emergent interest curriculum delivered through the medium of the Irish language in the service.

The service is situated in a classroom at the rear of the national school situated on the outskirts of an urban area and the service has its own entrance door.

There is a large secure outdoor area available to the children for daily outdoor play.

### Staffing

Naíonra Leim an Bhradain employs four childcare staff including the registered provider.

The registered provider works directly with the preschool children. The adults working in the service have completed a major award in Early Childhood Care and Education at Levels 5, 6 and 7 as per the National Framework of Qualifications.

### Methodology

Tusla's Early Years Inspectorate is the independent statutory regulator of early years services in Ireland. The Child Care Act 1991 (Early Years Services) Regulations 2016 define the duty of a registered provider to ensure the safety and well-being of children and to comply with these regulations. This Act also gives Tusla the authority to assess compliance with the regulations. The purpose of regulation in relation to early years services is to ensure that the care, safety, and well-being of children attending such services is upheld. Inspections of early years services are planned based on the following:

- Previous inspection history
- Any information received in relation to the service

The findings on inspection are based on:

- Information obtained through examination of documentation
- Direct observation
- Discussion with relevant staff

This inspection was unannounced and focused on the area of governance and safety. The inspection may also focus on other areas as required.

A sampling process was used to assess compliance under Regulation 15 – Records of a pre-school child.

Inspection findings are documented in the inspection report which is first issued in draft format to the service with an opportunity to respond to any findings. Where statutory requirements are identified as not being met, the registered provider must demonstrate how they have rectified the non-compliance and will prevent any non-compliance from re occurring. The Corrective Action and Preventive Action plan (CAPA) will be used to inform decisions about compliance with regulatory requirements. Where the registered provider fails to meet the statutory requirements an escalation process may be commenced.

The inspectorate reserves the right to edit responses received for reasons including clarity, completeness and compliance with administrative and legal processes.

The contents of the report are compiled by the inspectorate body.

## Acknowledgments

The inspector wishes to acknowledge the cooperation of the registered provider, person in charge and children who were present on the day of the inspection.

### Part VI - Safety

#### Regulation 23 - Safeguarding health, safety and welfare of child

*A registered provider shall ensure that all reasonable measures are taken to safeguard the health, safety and welfare of a pre-school child attending the service and that the environment of the service is safe.*

#### Compliance Information

##### General Safety:

The entrance to the service was controlled by staff to prevent children from exiting the service unsupervised and to restrict unauthorised persons from gaining access to the pre-school room. The person in charge documented the inspectors' visit to the service in the visitor's book on arrival. The service met the necessary safety requirements in respect of the indoor environment, toys and equipment and safe storage of cleaning agents. The registered provider ensured that issues requiring maintenance or repair were promptly addressed.

##### Infection Control:

There was an infection control policy in place. Thermostatically controlled hot water, liquid hand soap and paper towels were readily available for hygienic hand washing and drying. The staff members supervised children's handwashing and handwashing routines were well established. Written cleaning schedules were displayed and maintained for the room environment which was observed to be maintained in a clean and hygienic condition.

##### Administration of Medication:

Medication was not given at the time of the inspection. Written parental consents were available should medication be required to be administered to children. The staff members were familiar with the safe practice when administering medication in the service. Medication was safely stored out of the reach of children.

### Safe Sleep:

There was a comfortable rest area available for any child who wished to read quietly or take a break from activities for a while.

### Fire Safety:

The staff members were familiar with fire safety evacuation procedures from the service. Assembly point signage was clearly displayed. The fire exits were not obstructed.

### Outing:

The service conducts outings. An outings policy was available.
