Description of service

Lanesborough/ Ballyleague Community Childcare service was established in 1997. The service provides sessional preschool care and education to children aged 2-6 years. The service participates in the Early Childhood Care and Education scheme (ECCE) and operates from 9:30 am to 12:30 pm

The service is located in a former primary school in the town of Lanesborough, Co Longford. There are 3 care rooms in the service namely the Junior Preschool room, Room One and Room Two. Each care room has a separate enclosed outdoor space available to the rear of the service.

School age care is provided also.

Parking facilities are available.

Staffing

On the day of inspection there were twelve staff present. Of the twelve staff present, nine staff members and one student on placement were working directly with the children. The manager was not assigned to a care room but was available to provide support across all of the care rooms as required. The administrator for the service was also present. A chef and caretaker are employed in the service but not present while the preschool children are in the service.

The registered provider does not work in the service.

All adults working directly with the children had a major award in Early Childhood Care and Education on the National Framework of Qualifications.

Methodology

Tusla's Early Years Inspectorate is the independent statutory regulator of early years services in Ireland. The Child Care Act 1991 (Early Years Services) Regulations 2016 define the duty of a registered provider to ensure the safety and well-being of children and to comply with these regulations. This Act also gives Tusla the authority to assess compliance with the regulations. The purpose of regulation in relation to early years services is to ensure that the care, safety, and well-being of children attending such services is upheld. Inspections of early years services are planned based on the following:

- Previous inspection history
- Any information received in relation to the service

The findings on inspection are based on:

- Information obtained through examination of documentation
- Direct observation

- Discussion with relevant staff

This inspection was unannounced and focused on the area of governance and safety. The inspection may also focus on other areas as required.

Inspection findings are documented in the inspection report which is first issued in draft format to the service with an opportunity to respond to any findings. Where statutory requirements are identified as not being met, the registered provider must demonstrate how they have rectified the non-compliance and will prevent any non-compliance from re occurring. The Corrective Action and Preventive Action plan (CAPA) will be used to inform decisions about compliance with regulatory requirements. Where the registered provider fails to meet the statutory requirements an escalation process may be commenced.

The inspectorate reserves the right to edit responses received for reasons including clarity, completeness and compliance with administrative and legal processes.

The contents of the report are compiled by the inspectorate body.

Acknowledgments

The inspector wishes to acknowledge the cooperation of the person in charge, staff and children who were present on the day of the inspection.

Part III – Management and Staff

Regulation 9 – Management and recruitment

Regulation 23 - Safeguarding health, safety and welfare of child

A registered provider shall ensure that all reasonable measures are taken to safeguard the health, safety and welfare of a pre-school child attending the service and that the environment of the service is safe.

Compliance Information

General Safety:

The entrance to the service was electronically secured and the garden gates were appropriately secured to prevent the children from exiting unsupervised and to restrict unauthorised persons from gaining access to the Early Years' service.

The service met the necessary safety requirements in respect of the indoor environment, toys and equipment and safe storage of cleaning agents. The staff members advised the inspector that they immediately cut/chop any food that may pose a choking risk to a child at snack time.

There was documentary evidence available that daily indoor risk assessments were completed daily and reviewed to promptly identify and manage any potential risks in the care rooms. The service had a system in place to manage maintenance issues.

Infection Control:

The staff members supervised the children's handwashing and handwashing routines were well established. Staff members were observed washing their hands during the morning. Thermostatically controlled hot water, liquid hand soap and paper towels were readily available for hygienic hand washing and drying. Foot pedal operated bins were provided for the disposal and containment of used tissues. Nappy changing facilities were available for any child who was not toilet trained.

Children's lunches were refrigerated on arrival at the service.

Cleaning schedules were maintained for the room environment which were observed to be maintained in a clean and hygienic condition.

Administration of Medication:

Medication was not given at the time of the inspection. The staff members were familiar with the required practices when administering medication in the service. There were no children attending who required medication to be administered while attending the service. A bottle of anti – febrile medicine was safely stored in the kitchen.

Safe Sleep:

A comfortable rest area was available in each care room for any child who wished to have a rest or take a break from activities for a while.

Fire Safety:

The staff members were familiar with the fire evacuation procedures from the service. Fire exits were not obstructed. Fire drills were carried out monthly and records were maintained.

Outing:

The service does not conduct outings.
