Title:	Early Years Inspector

Authority to Inspect

The Tusla Early Years Inspectorate carries out inspections of Early Years Services under Section 58(J) of the Child Care Act 1991 (as inserted by Section 92 of the Child and Family Agency Act 2013).

Conditions if applicable	Not applicable
---------------------------------	----------------

Description of service

This is an early years preschool which first opened in 1998. The service provides sessional education and care to preschool children aged 3 to 6 years of age. The service operates from 09.15hrs to 12.15hrs and the setting caters for a maximum of 22 children. It is located in a single storey house in a residential area. There are 2 care rooms in operation for children. The service has an outdoor play area located at the entrance to the premises where children have access to outdoor play equipment.

Staffing

The registered provider is the designated person in charge and works on site every day. There are two additional staff members employed and all staff have childcare qualifications.

Methodology

Tusla's Early Years Inspectorate is the independent statutory regulator of early years services in Ireland. The Child Care Act 1991 (Early Years Services) Regulations 2016 define the duty of a registered provider to ensure the safety and well-being of children and to comply with these regulations. This Act also gives Tusla the authority to assess compliance with the regulations. The purpose of regulation in relation to early years services is to ensure that the care, safety, and well-being of children attending such services is upheld. Inspections of early years services are planned based on the following:

- Previous inspection history
- Any information received in relation to the service

The findings on inspection are based on:

- Information obtained through examination of documentation
- Direct observation
- Discussion with relevant staff

This inspection was unannounced and focused on the area of governance, health, welfare and development of child and safety. The inspection may also focus on other areas as required.

The inspection focused on an examination of compliance under regulations 9,10,11,15,19,24,25,26 and 28.

Inspection findings are documented in the inspection report which is first issued in draft format to the service with an opportunity to respond to any findings. Where statutory requirements are identified as not being met, the registered provider must demonstrate how they have rectified the non-compliance and will prevent any non-compliance from re occurring. The Corrective Action and Preventive Action plan (CAPA) will be used to inform decisions about compliance with regulatory requirements. Where the registered provider fails to meet the statutory requirements an escalation process may be commenced.

The inspectorate reserves the right to edit responses received for reasons including clarity, completeness and compliance with administrative and legal processes.

The contents of the report are compiled by the inspectorate body.

Acknowledgments

The inspector wishes to acknowledge the cooperation of the registered provider, staff and children who were present on the day of the inspection.

Compliance Information

(1)(a)BASIC NEEDS:

Snacks provided by the parents of the children included fruit, sandwiches, yogurts and water to drink for their morning break. Children sat at low tables and had their lunch in an environment that promoted social interaction with peers and the adults and was unhurried. Staff were observed to clean the tables before snacks were eaten. There was a defined, comfortable and inviting rest area in both rooms where children could have some quiet time. The children were encouraged to wash their hands at appropriate times such as after toileting and before eating. Hand washing was facilitated in the sanitary accommodation with a supply of hot and cold running water and liquid antibacterial soap. Children were observed to use the toilet facilities independently and nappy changing facilities were not required.

Children were allowed to move freely indoors from one activity to the next. The children were supported and encouraged to behave appropriately for their age and stage of development through having simple rules to follow and a good level of choice of activities. Staff modelled positive behaviour for the children and the children were praised for their good behaviour.

PHYSICAL AND MATERIAL ENVIRONMENT:

This service was operated from two rooms in the registered providers domestic dwelling in an urban setting.

Children were observed playing with playdough, reading books ,making jigsaws and washing dolls at the water table outdoors. There was an emphasis on active play and exploration. There was free choice of activities that supported childrens language, communication and thought processes. Physical play was evident which supported the development of strength, co-ordination and motor skills. Role play helped children to communicate, question and hold conversations with each other. The service responded to childrens preferences and interests.

The pre-school rooms were equipped with open shelving units which were child accessible so that the children could access equipment and materials independently. Shelving units were also used effectively as room dividers to create play spaces, such as the library/quiet area, dress up area, farm area, home corner, construction area,

small world area and arts and crafts area and tabletop activities area. There was a 'Family tree' which displayed pictures of each child's family which supported children's sense of identity and belonging.

Children played in the outdoor play area which had a concrete surface and was safe and secure. There was a plentiful supply of ride on bikes and trikes for children and all children were dressed appropriately for the weather. Children were encouraged to play at the open sand table and enjoyed this form of messy play. A section of the outdoor play area was roofed which allowed children spend additional time outdoors in the fresh air.
