Description of service

Timahoe Tots is a privately owned and operated full day care, part time and sessional service which has been in operation since 2008. The service is located in the village of Timahoe in rural Co. Laois. The service currently cares for children in the age range from one year to six years. The service operates between the hours of 8.00am to 6.00 pm from Monday to Friday and accommodate up to 40 preschool children. This converted domestic dwelling is a standalone single storey building located on the village green in Timahoe. The premises is used for the sole purpose of operating an early years' service. The service consists of an entrance lobby, a cloakroom area, a connecting hallway and three playrooms, the front playroom, and the toddler room the ECCE room. A designated sleep room is provided. A kitchen is located off the front play room. There are five sanitary accommodations for children's use and one nappy changing facility, in addition to one toilet for adult use.

A large secure outdoor play area is provided to the back of the service. Parking and set down is available on the public road.

Staffing

The registered provider was not on site during the inspection and person in charge facilitated the inspection. Five staff work in the service including the registered provider. All staff members hold a major award in Early Childhood Care and Education at Levels 6 to 8 on the National Framework of Qualifications.

Methodology

Tusla's Early Years Inspectorate is the independent statutory regulator of early years services in Ireland. The Child Care Act 1991 (Early Years Services) Regulations 2016 define the duty of a registered provider to ensure the safety and well-being of children and to comply with these regulations. This Act also gives Tusla the authority to assess compliance with the regulations. The purpose of regulation in relation to early years services is to ensure that the care, safety, and well-being of children attending such services is upheld. Inspections of early years services are planned based on the following:

- Previous inspection history
- Any information received in relation to the service

The findings on inspection are based on:

- Information obtained through examination of documentation
- Direct observation
- Discussion with relevant staff.

This inspection was unannounced and focused on the area of governance health, welfare and development of child safety premises and facilities. The inspection may also focus on other areas as required.

A sampling process was used to assess compliance under Regulation 19 Health, welfare, and development of child .

As a result, the scope of the inspection included the front room, sanitary accommodations, and the outdoor play area.

Inspection findings are documented in the inspection report which is first issued in draft format to the service with an opportunity to respond to any findings. Where statutory requirements are identified as not being met, the registered provider must demonstrate how they have rectified the non-compliance and will prevent any non-compliance from re occurring. The Corrective Action and Preventive Action plan (CAPA) will be used to inform decisions about compliance with regulatory requirements. Where the registered provider fails to meet the statutory requirements an escalation process may be commenced.

The inspectorate reserves the right to edit responses received for reasons including clarity, completeness, and compliance with administrative and legal processes.

The contents of the report are compiled by the inspectorate body .

Acknowledgments

The inspector wishes to acknowledge the cooperation of the person in charge, staff and children who were present on the day of the inspection.
