### Description of service

This service is a registered full day care service situated within close proximity of Roscommon town. It is operated by a voluntary committee. The service operates weekdays from 8am to 6pm for children aged from 6 months to 6 years and also provides a school aged childcare service. This includes a morning sessional service from 9.30am – 12.30pm and a part time service from 09:30am -13.30pm. The building was purpose built for the provision of the early years' service. Accommodation includes four separate playrooms, a sleep room, a kitchen where meals for children are prepared, office spaces and relevant sanitary facilities. There are two outdoor play areas to the side of the building, one of which contains a covered in section to enable play during inclement weather.

### Staffing

There are fourteen adults employed in the service which includes a manager and a deputy manager/programme support, and one adult is employed in the kitchen. The service also provides a school aged service.

### Methodology

Tusla's Early Years Inspectorate is the independent statutory regulator of early years services in Ireland. The Child Care Act 1991 (Early Years Services) Regulations 2016 define the duty of a registered provider to ensure the safety and well-being of children and to comply with these regulations. This Act also gives Tusla the authority to assess compliance with the regulations. The purpose of regulation in relation to early years services is to ensure that the care, safety, and well-being of children attending such services is upheld. Inspections of early years services are planned based on the following:

- Previous inspection history
- Any information received in relation to the service

The findings on inspection are based on:

- Information obtained through examination of documentation
- Direct observation
- Discussion with relevant staff

This inspection was unannounced and focused on the regulations 9,11,19,23,25,26 and 28. The inspection may also focus on other areas as required.

Inspection findings are documented in the inspection report which is first issued in draft format to the service with an opportunity to respond to any findings. Where statutory requirements are identified as not being met, the registered provider must demonstrate how they have rectified the non-compliance and will prevent any non-compliance from re occurring. The Corrective Action and Preventive Action plan (CAPA) will be used to inform

decisions about compliance with regulatory requirements. Where the registered provider fails to meet the statutory requirements an escalation process may be commenced.

The inspectorate reserves the right to edit responses received for reasons including clarity, completeness and compliance with administrative and legal processes.

The contents of the report are compiled by the inspectorate body.

### Acknowledgments

The inspector wishes to acknowledge the cooperation of the person in charge, deputy person in charge, staff and children who were present on the day of the inspection.
