Description of service

Greenfields childcare and Montessori has been notified as an early years' service since 2009. It provides a sessional, part time and full day care service and is governed by a nonprofit local community group. It caters for children from two to six years and the pedagogy of the service is based on a play-based curriculum. It's hours of opening are from 09:00 hrs to 18:00hrs Monday to Friday. The premises is located within close proximity of the community centre on the outskirts of Roscommon town. There is a playroom available for children's play with sanitary accommodation and a kitchenette. A sensory garden is provided to the front of the premises and the children also have access to a secured outdoor area to the rear of the premises.

Staffing

The registered provider does not work directly with the children and has employed a person in charge to operate the service. There is an additional adult employed and a relief arrangement is in place in event of staff absence.

Methodology

Tusla's Early Years Inspectorate is the independent statutory regulator of early years services in Ireland. The Child Care Act 1991 (Early Years Services) Regulations 2016 define the duty of a registered provider to ensure the safety and well-being of children and to comply with these regulations. This Act also gives Tusla the authority to assess compliance with the regulations. The purpose of regulation in relation to early years services is to ensure that the care, safety, and well-being of children attending such services is upheld. Inspections of early years services are planned based on the following:

- Previous inspection history
- Any information received in relation to the service

The findings on inspection are based on:

- Information obtained through examination of documentation
- Direct observation
- Discussion with relevant staff

This inspection was unannounced and focused on the area of governance, health, welfare and development of child and safety. The inspection may also focus on other areas as required.

Inspection findings are documented in the inspection report which is first issued in draft format to the service with an opportunity to respond to any findings. Where statutory requirements are identified as not being met, the registered provider must demonstrate how they have rectified the non-compliance and will prevent any non-

compliance from re occurring. The Corrective Action and Preventive Action plan (CAPA) will be used to inform decisions about compliance with regulatory requirements. Where the registered provider fails to meet the statutory requirements an escalation process may be commenced.

The inspectorate reserves the right to edit responses received for reasons including clarity, completeness and compliance with administrative and legal processes.

The contents of the report are compiled by the inspectorate body.

Acknowledgments

The inspector wishes to acknowledge the cooperation of the registered provider, person in charge, staff and children who were present on the day of the inspection.
