Description of service

Jellytots is based in a renovated community centre in the rural village of Ballyduff, Co. Waterford. The service has the use of a dedicated room with the sanitary area and cloakroom directly off the room. There is a kitchen on site, and the children have the use of the large hall for physical play if the weather is not suitable to go outdoors. The outdoor area is at the rear of the building and is securely fenced in.

The service is registered to offer care to 22 pre-school children, aged from 2 to 6 years, from 09:30 to 14:00. The service also offers school-age care.

Staffing

The service employs three staff members, including the registered provider who works directly with children. On the day of the inspection, three staff members were working directly with the pre-school children.

Methodology

Tusla's Early Years Inspectorate is the independent statutory regulator of early years services in Ireland. The Child Care Act 1991 (Early Years Services) Regulations 2016 define the duty of a registered provider to ensure the safety and well-being of children and to comply with these regulations. This Act also gives Tusla the authority to assess compliance with the regulations. The purpose of regulation in relation to early years services is to ensure that the care, safety, and well-being of children attending such services is upheld. Inspections of early years services are planned based on the following:

- Previous inspection history
- Any information received in relation to the service

The findings on inspection are based on:

- Information obtained through examination of documentation
- Direct observation
- Discussion with relevant staff

This inspection was unannounced and focused on the areas of governance/ health, welfare, and development of children, safety/ premises and facilities. The inspection may also focus on other areas as required.

Regulation 9 – Management and Recruitment;

Regulation 11 – Staffing Levels;

Regulation 15 – Record of Preschool Child;

Regulation 16 – Record in Relation to Pre-School Service

Regulation 20 - Facilities for Rest and Play;

Regulation 25 – First Aid;

Regulation 26 – Fire Safety Measures;

Regulation 28- Insurance.

These findings are outlined within the relevant regulations within this report.

A sampling process was used to assess compliance under regulation 15(1) – Record of Preschool Child and 16(1)(h)(i)(k) Records of a preschool child.

Inspection findings are documented in the inspection report which is first issued in draft format to the service with an opportunity to respond to any findings. Where statutory requirements are identified as not being met, the registered provider must demonstrate how they have rectified the non-compliance and will prevent any non-compliance from re occurring. The Corrective Action and Preventive Action plan (CAPA) will be used to inform decisions about compliance with regulatory requirements. Where the registered provider fails to meet the statutory requirements an escalation process may be commenced.

The inspectorate reserves the right to edit responses received for reasons including clarity, completeness and compliance with administrative and legal processes.

The contents of the report are compiled by the inspectorate body.

Acknowledgments

The inspector wishes to acknowledge the cooperation of the registered provider, person in charge, staff and children who were present on the day of the inspection.
