---------------------------------	----------------

Description of service

Ark Pre-school is a service which offers sessional and part-time care. It was established in 2002 and is privately operated. The service is registered to care for children aged between 2 -6 years, from 09.00 to 14.30 daily. Care is provided in a church hall which has been adapted for use as a pre-school. A sanitary area and kitchen are adjacent to the room. Children have access to an outdoor area which is located at the rear of the premises.

Staffing

There are four staff employed, one of whom is the registered provider. All staff members hold a major award in Early Childhood Care and Education.

Methodology

Tusla's Early Years Inspectorate is the independent statutory regulator of early years services in Ireland. The Child Care Act 1991 (Early Years Services) Regulations 2016 define the duty of a registered provider to ensure the safety and well-being of children and to comply with these regulations. This Act also gives Tusla the authority to assess compliance with the regulations. The purpose of regulation in relation to early years services is to ensure that the care, safety, and well-being of children attending such services is upheld. Inspections of early years services are planned based on the following:

- Previous inspection history
- Any information received in relation to the service

The findings on inspection are based on:

- Information obtained through examination of documentation
- Direct observation
- Discussion with relevant staff

This inspection was unannounced and focused on the area of governance, health, welfare and development of child and safety. The inspection may also focus on other areas as required.

Inspection findings are documented in the inspection report which is first issued in draft format to the service with an opportunity to respond to any findings. Where statutory requirements are identified as not being met, the

registered provider must demonstrate how they have rectified the non-compliance and will prevent any non-compliance from re occurring. The Corrective Action and Preventive Action plan (CAPA) will be used to inform decisions about compliance with regulatory requirements. Where the registered provider fails to meet the statutory requirements an escalation process may be commenced.

The inspectorate reserves the right to edit responses received for reasons including clarity, completeness and compliance with administrative and legal processes.

The contents of the report are compiled by the inspectorate body.

Acknowledgments

The inspector wishes to acknowledge the cooperation of the registered provider, staff and children who were present on the day of the inspection.
