## Pre-registration Inspection Process

Tusla's Early Years Inspectorate complete a Pre-Registration Inspection of all proposed pre-school services, as part of the registration process. This is undertaken before the service can be registered. The purpose is to assess whether the service is a safe and suitable setting for children and to ensure that the number of children the service wants to care for can be safely accommodated. The inspection is arranged with the registered provider in advance. The inspector will assess the service against the pre-school regulations.

There are two possible outcomes following the pre-registration inspection:

# Pre-Registration Inspection Report for Proposed New Services

- **Requirements Met:** The service may be registered without any further actions needed by the registered provider.
- **Requirements Not Met:** The inspector has identified regulatory requirements which have not been met. The registered provider has an opportunity to submit to the inspector what actions they have taken / are taking to address them in advance of the finalisation of the report and the registration decision.

Once the Pre-Registration Inspection process is complete, the report will be finalised and a registration decision will be made and communicated to the registered provider.

The floor space available can accommodate a maximum of 113 children on a full daycare, part time or sessional basis aged between 0 and 6 years.

# Pre-Registration Inspection Report for Proposed New Services

## Methodology

The inspection was an announced inspection to assess compliance with the Childcare Act 1991 (Early Years Services) Regulations 2016 and Childcare Act 1991 (Early Years Services) (Amendment) Regulations 2016. The Inspection focused on regulations under four themes: Governance, Health, Welfare and Development of the Child, Safety and Premises.

The findings on inspection based on information obtained through examination of documentation, direct observation, and discussion with relevant staff are documented in the inspection report and taken into consideration when making a decision in relation to the registering application. The Inspectorate reserves the right to edit responses received for reasons including clarity; completeness; and compliance with administrative and legal processes. The contents of the report are compiled by the inspectorate body.
