## Pre-registration Inspection Process

Tusla's Early Years Inspectorate complete a Pre-Registration Inspection of all proposed pre-school services, as part of the registration process. This is undertaken before the service can be registered. The purpose is to assess whether the service is a safe and suitable setting for children and to ensure that the number of children the service wants to care for can be safely accommodated. The inspection is arranged with the registered provider in advance. The inspector will assess the service against the pre-school regulations.

There are two possible outcomes following the pre-registration inspection:

- **Requirements Met:** The service may be registered without any further actions needed by the registered provider.

- **Requirements Not Met:** The inspector has identified regulatory requirements which have not been met. The registered provider has an opportunity to submit to the inspector what actions they have taken / are taking to address them in advance of the finalisation of the report and the registration decision.

Once the Pre-Registration Inspection process is complete, the report will be finalised and a registration decision will be made and communicated to the registered provider.
